Each order has an icon on the top-left that indicates the type of order. See example below - Restaurant (dine-in)

The screenshot displays two side-by-side POS screens. The left screen, titled 'Table 30' with a 'Restaurant' icon, shows 7 items: 1x SiDe (Scissor, ScissorSource), 1x Bt 16.9oz (AQuafina), 1x Large Hand toss (Cheese, L Classic, Mushrooms), and 1x ReGular (Sft Drnk). The right screen, titled 'PH Takeaway update' with a 'Pick up' icon, shows 2 items: 1x Ppp Pan (Cheese, S Classic, Ham, Chicken, Blk Olive, Rst Pepr) and 1x Cheese. Both screens have a 'Make & Bake' section and a 'Preparations' sidebar on the right. The sidebar includes 'Orders' (5), 'Items' (16), 'Holding' (0), 'Avg. Prep Time' (00:00 Last Hour, 00:00 Today, 01:04 Weekly), 'Agg Items' (Stuffed Crust, Lrg HT, Med HT, Lrg Pan, Med Pan, Lrg Thin, Med Thin, Rectangle), and 'Shelves' (A, B, C, D). The bottom of the screens shows a 'Versions (?)' button and a '5' icon.

In this example 2 Delivery orders appear on the screen and one order is pending in the background.

The Make Screen, shows the total number of orders we have.

The screenshot shows two side-by-side 'Make only' screens for 'HappyFlow 2' and 'HappyFlow 3'. Each screen lists items for preparation, including 'Ppp Pan' and 'BtrBreadStx' with their respective ingredients. The right panel shows a summary of orders and preparations.

In case there are no available drivers yet, the system will recommend to 'Make Only'. We can start preparing the items without baking/cooking them. Click the order and then select 'Make only'.

The screenshot shows the 'Make only' screen with a modal dialog box open. The dialog has a title 'Choose the desired action' and two buttons: 'Make only' (highlighted with an orange circle) and 'Close'. The background shows the same item lists as in the previous screenshot.

20

Now, select one of the shelves on the screen.
In this case, the Dragon recommends selecting shelf B.

The screenshot shows the Yum! KDS interface with two 'Make only' panels on the left. The first panel lists items for a 'Ppp Pan' (Cheese, S Classic, Ham, Chicken, Blk Olive, Rst Peppr) and a 'BtrBreadStx' (BreadStx, 1 Btr Sau, 2 StxSeas, Marn Cup). The second panel shows the same items with a red dragon character overlaid. On the right, a 'Shelves' section displays four shelves labeled A, B, C, and D. Shelf B is highlighted with an orange circle. A 'Shelf selection' tooltip is visible at the bottom center, stating: 'Shelf selection. Place the order on the desired shelf. To cancel, click outside the Shelves area.'

DISPATCH SCREEN Overview

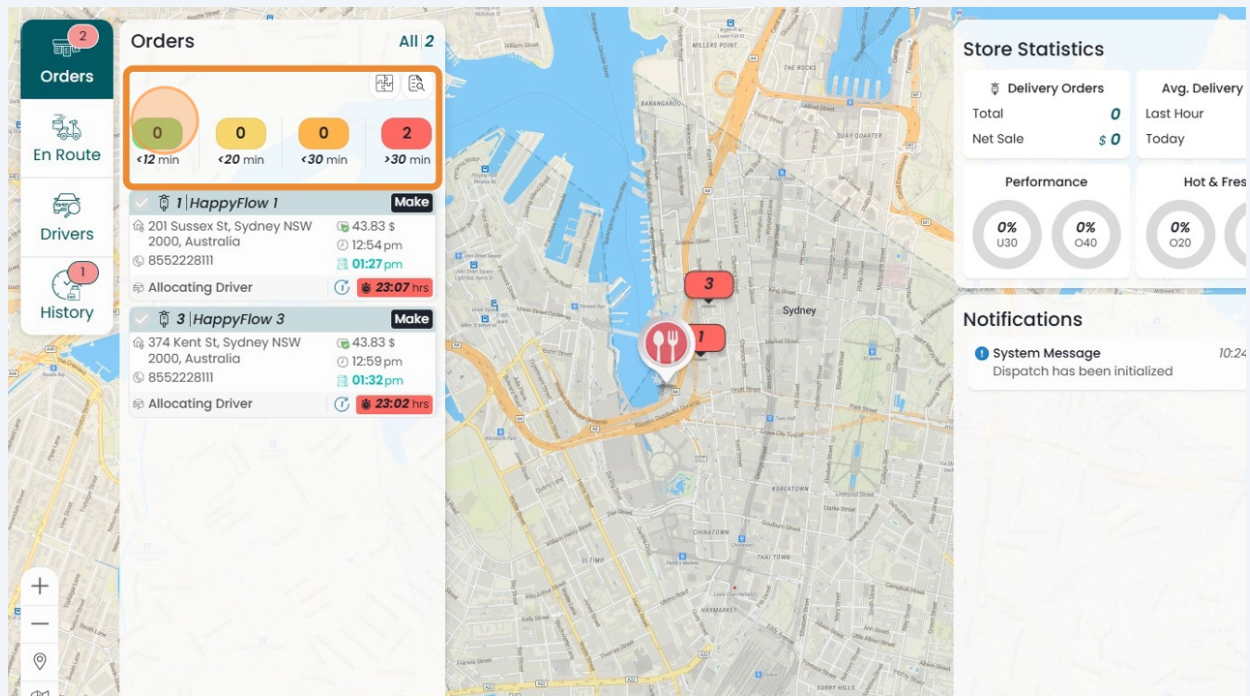

The Dispatch screen displays a map with all the drivers and deliveries in real time. In the 'Orders' Tab on the left appear all the orders that need to be assigned.

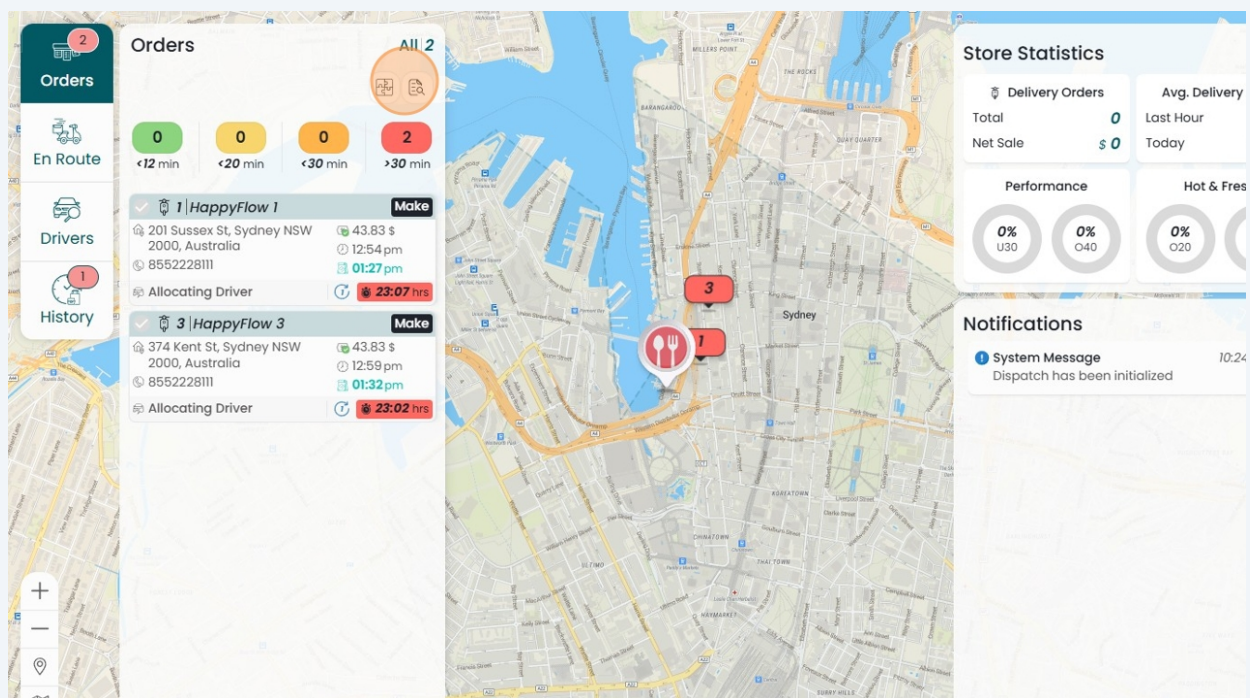

42

In this section, you can see how many orders we have, color coded and divided by the duration of the order (time passed since the order was taken).

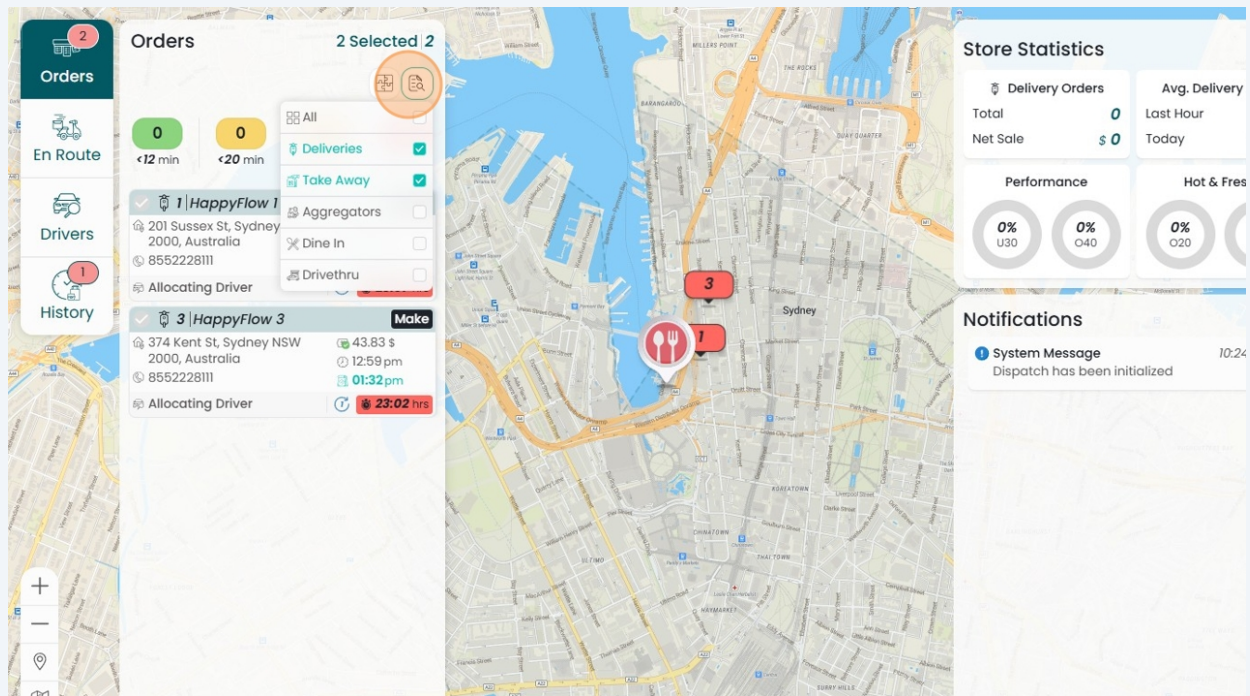

43

Clicking the puzzle icon allows to view orders broken into sections based on their 'order type' (delivery, take-away, dine-in etc).

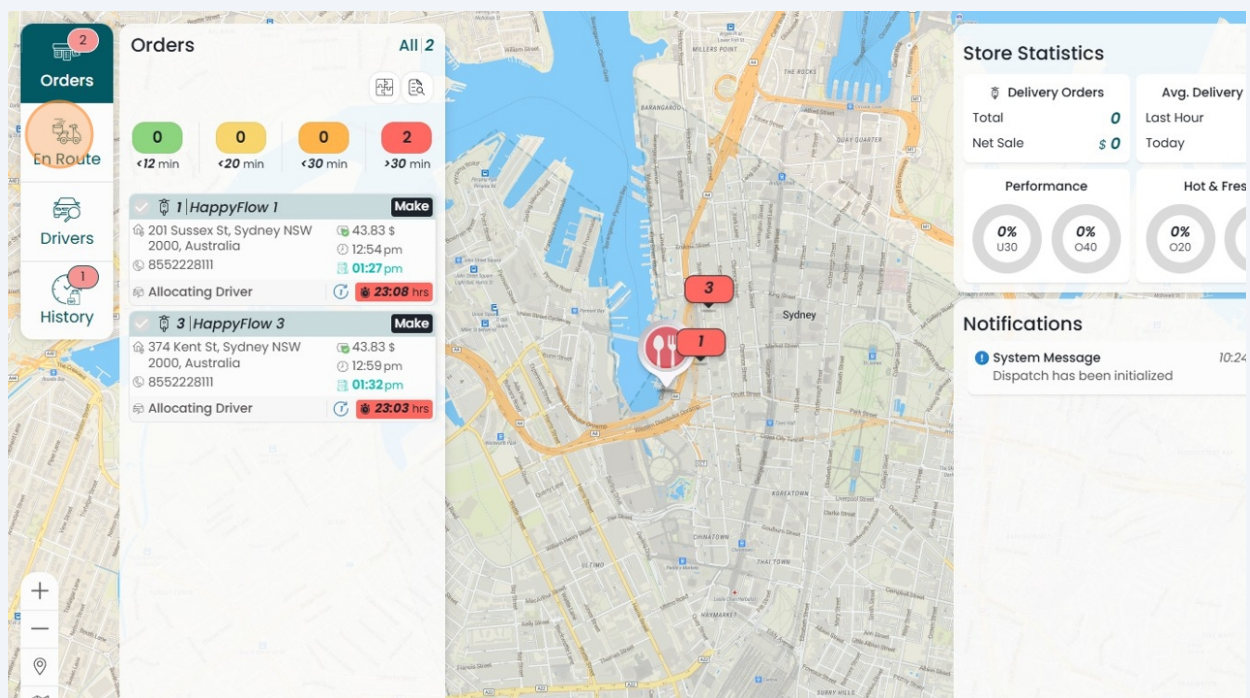

44

By clicking the search icon - there is an option to filter the order types you want to see (delivery/take-away/dine-in/Agg etc.)

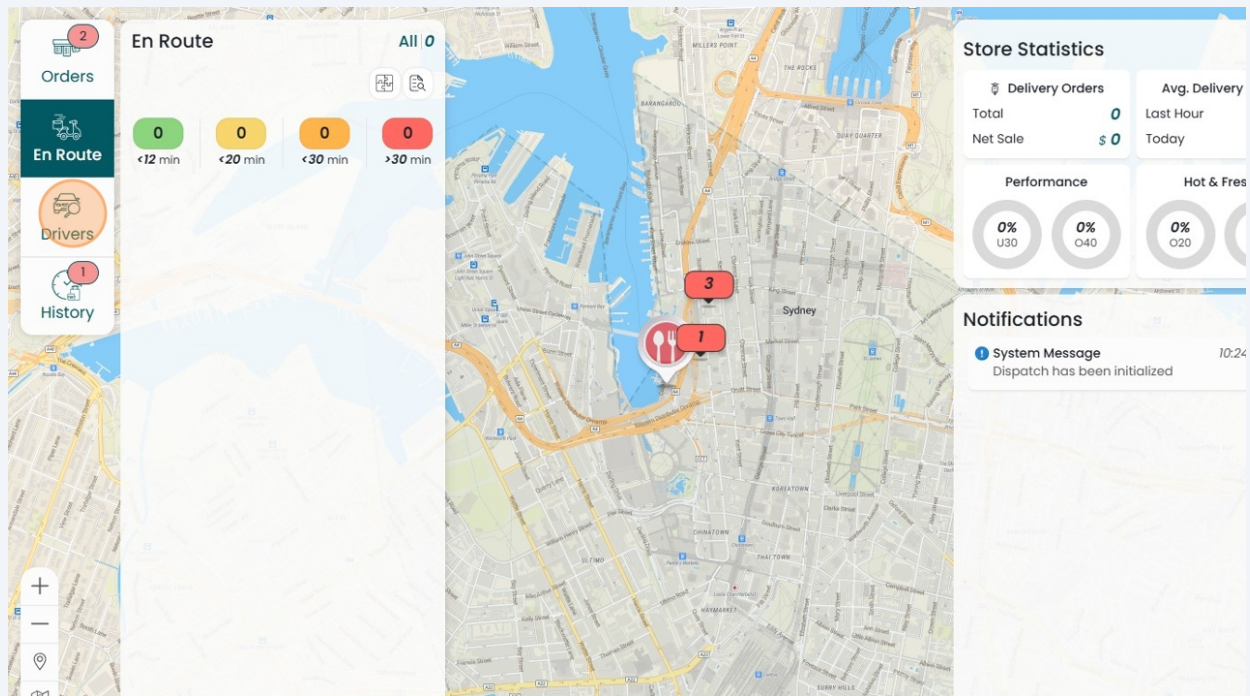

45

In the 'En Route' tab, the system shows orders that have been assigned to a driver, on their way to the customer (not yet delivered).

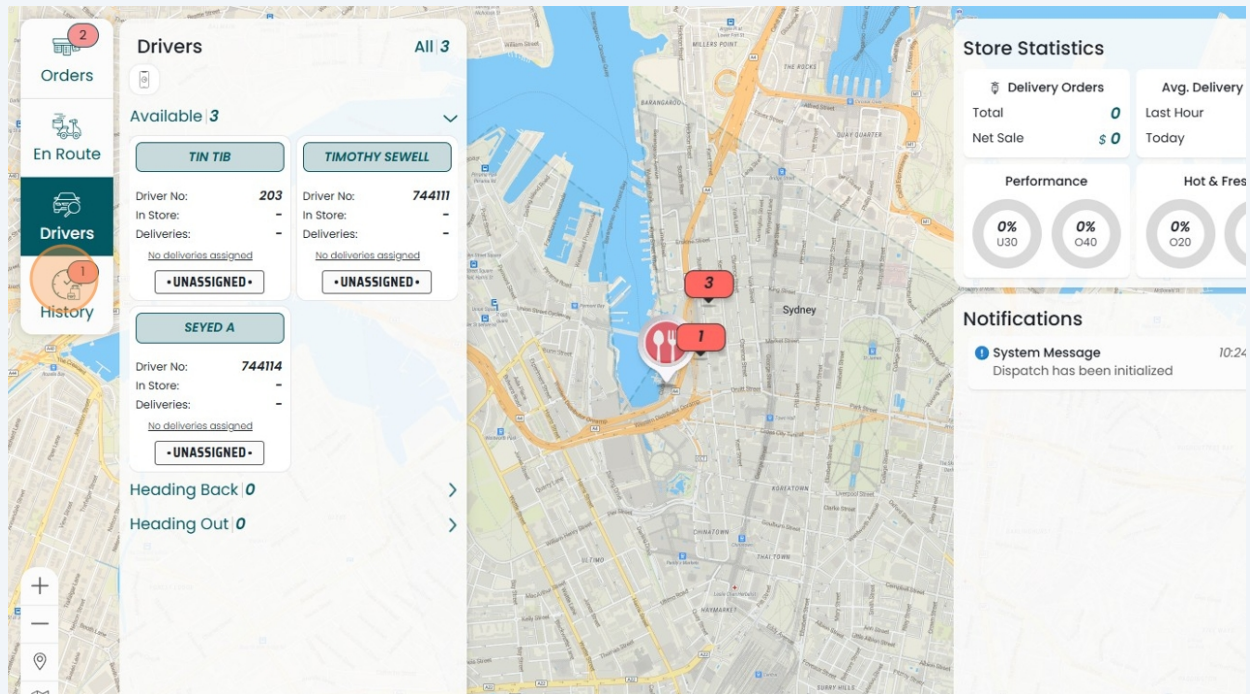

46 If you By clicking on Drivers tab:

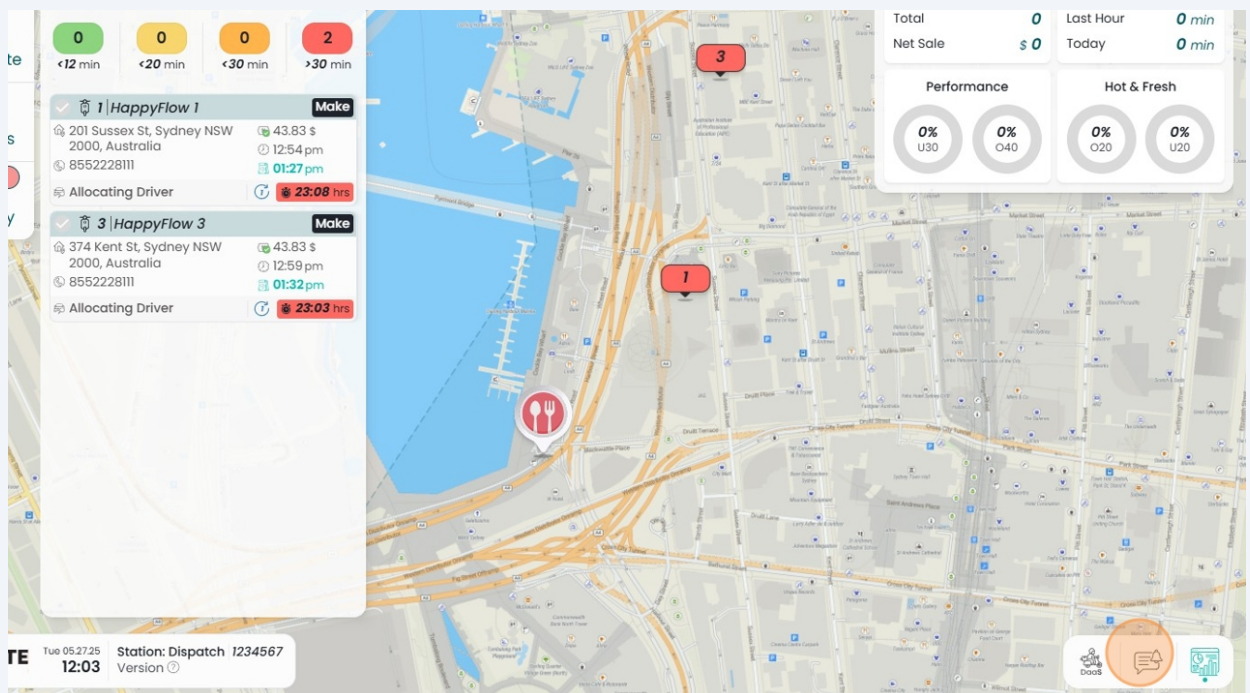

47 You will see all the drivers clocked in with their details.

Only drivers with assigned vehicles are considered as available.

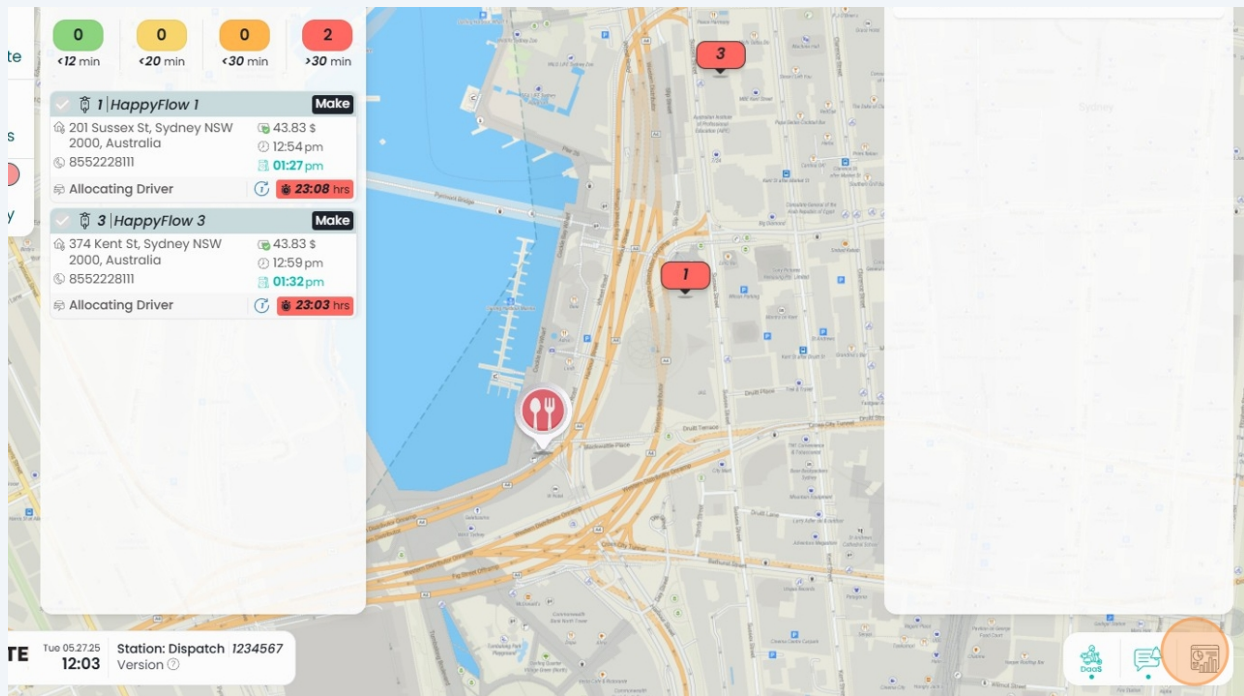

Drivers who are 'Unassigned' are not available to take deliveries.

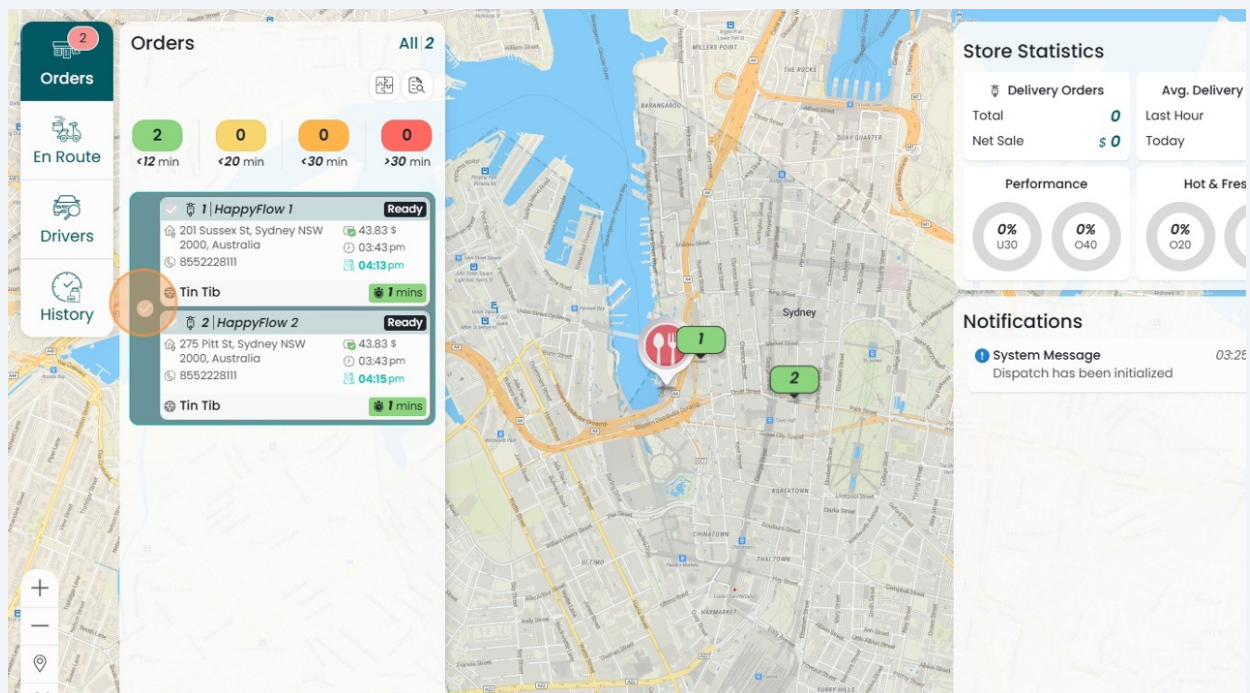

48 By clicking this icon at the bottom right of the screen, you can hide the notifications widget.

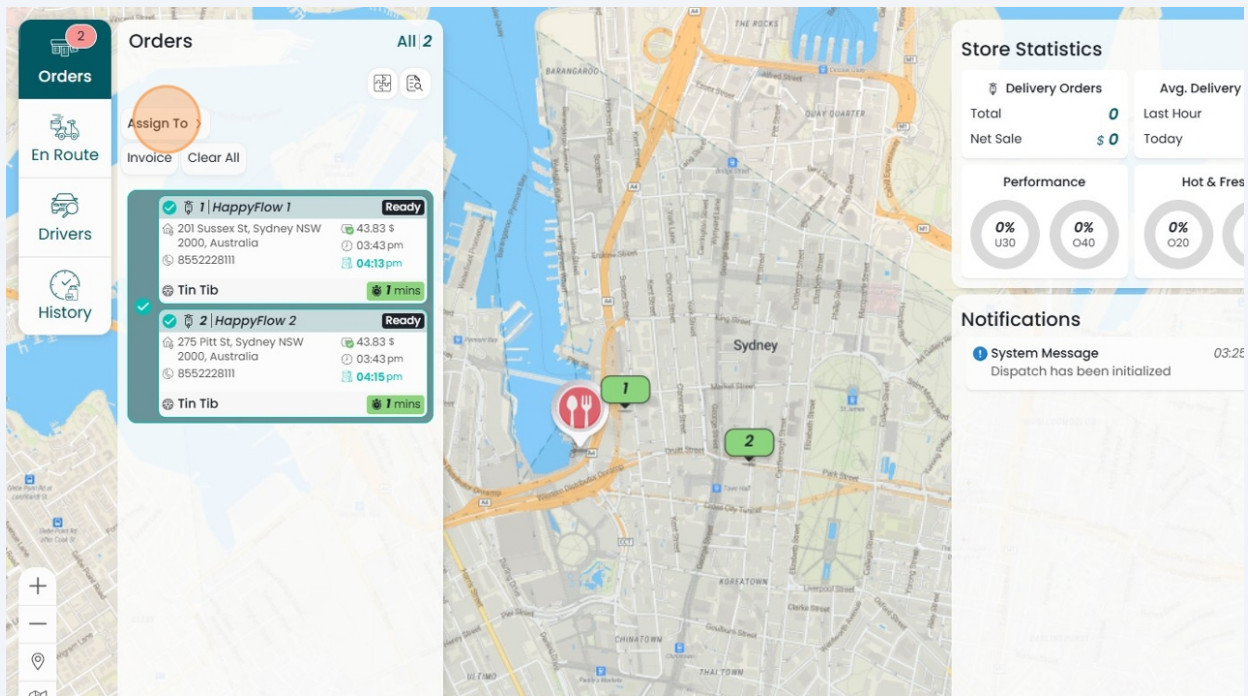

49 You can use these controls to hide or show various widgets.

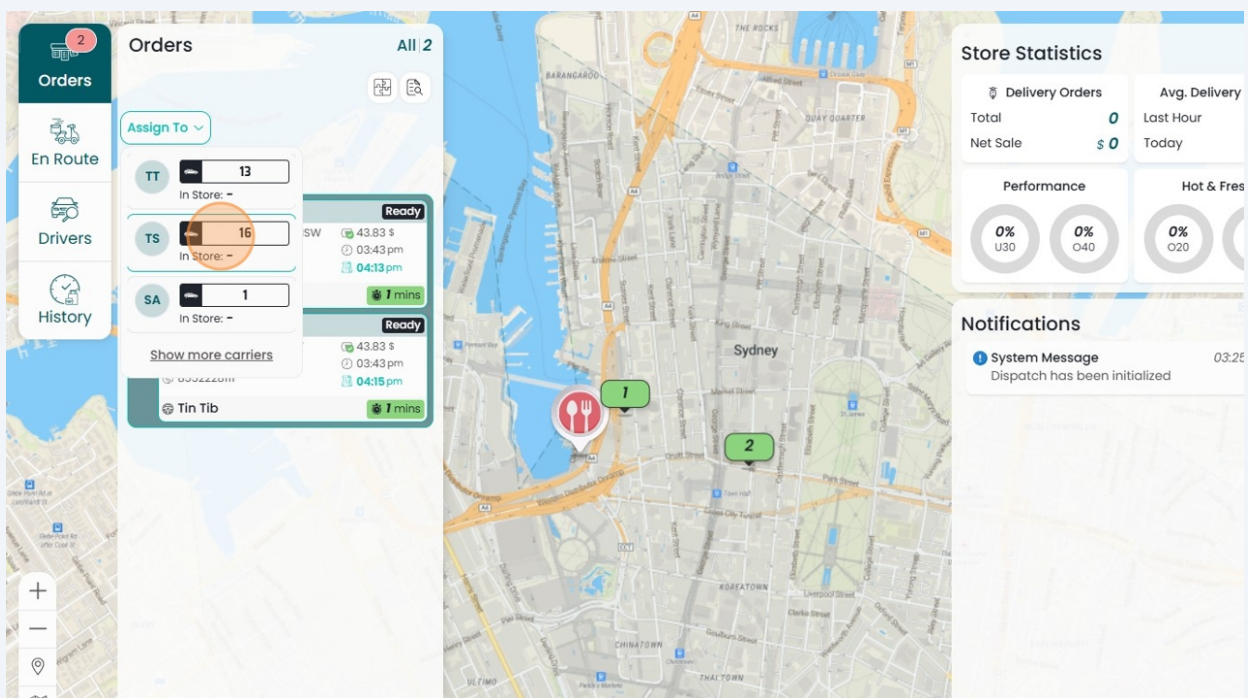

50 Recommended batches appear grouped together, with a shared checkbox. In the example below, the two deliveries are recommended to go together as a double. To assign to a driver, mark the shared checkbox

51 Click "Assign To"

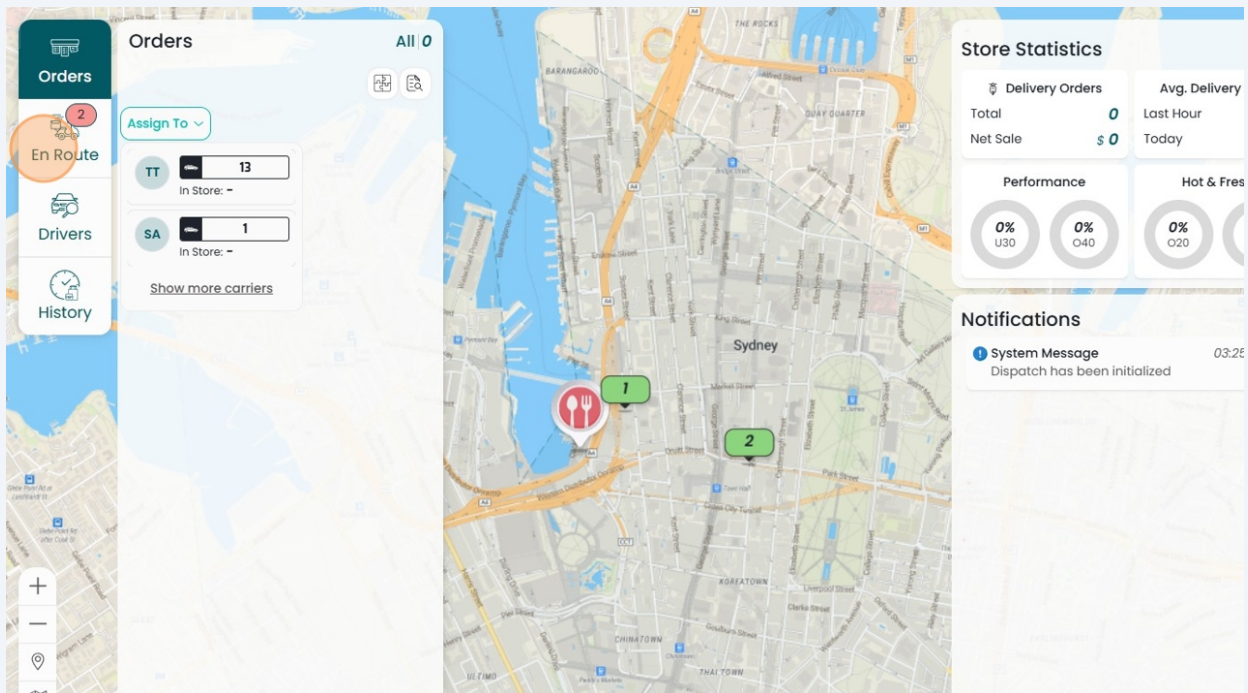

52 Choose one of the available drivers (in some cases recommended by the system)

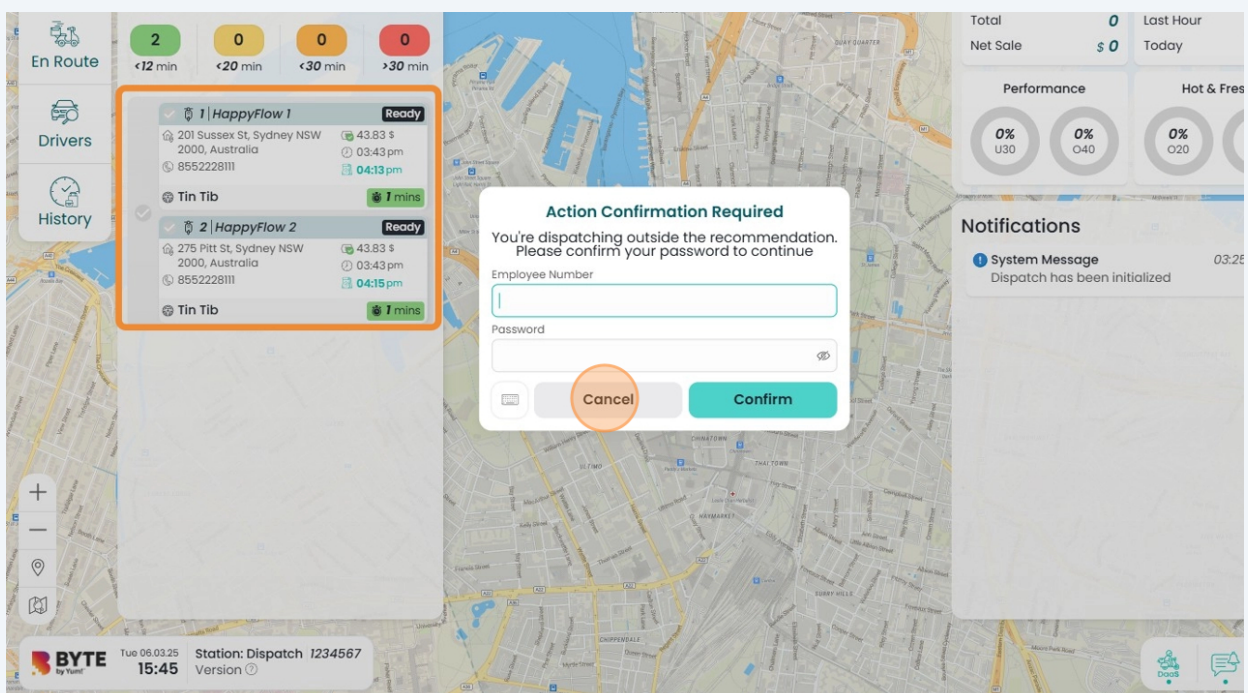

53

Click "En Route" to see driver details and estimated arrivals. From the moment the drivers leave, they appear on the map in real time!

54

If there is a need to assign differently than the system recommendation (for example to separate the double recommended below) - this action requires a manager password and reason to be selected.

DISPATCH SCREEN Assign vehicles

55

56

If you need to assign a vehicle to your driver (to be done at the beginning of drivers shift), start by clicking the Drivers tab.
